

## AWHONN Advanced Fetal Monitoring Course

The Advanced Fetal Monitoring course expands on the knowledge and physiological principles presented in the AWHONN Intermediate Fetal Monitoring Course. This course uses a case scenario approach to focus on the analysis of maternal-fetal physiology related to complex clinical information and fetal heart rate tracings. The course emphasizes the physiology of fetal-maternal oxygenation, the interpretation of tracings, the selection of clinical interventions, and perinatal risk-management principles. There is a recommended renewal date every two years for the Advanced Fetal Monitoring Course.

### Learning Outcomes:

- Describe the physiologic principals of the pregnant patient's and fetus's oxygen transfer as they apply to principles of fetal heart monitoring
- Appraise the fetal response to the pregnant patient's pathological and physiological adaptations during the labor process

### Nursing Contact Hours/CME Credit:

8 nursing contact hours/8 CME credit available through January 31, 2028 (0.75 hours may be used towards pharmacology hours).

### Course Format:

☐ in-person ☐ online

Nursing contact hours/CME credit will be awarded after the successful completion of the online knowledge validation test and evaluation is completed and is required to receive nursing contact hours/CME credit for the course.

### Cost:

- **AWHONN Registration Fee - \$120.00** – Advanced Participant Materials with unique Participant ID to access online knowledge integration test is included with the purchase of materials through Kendall Hunt. Course ID number is required with purchase.
- Current AWHONN *Fetal Heart Monitoring Principles & Practice Textbook*, if you don't have access to the textbook (\$76.96 print or \$64.95 ebook).
